

Monouse clips to graft cucurbitaceae (melon, watermelon, cucumber). The particular softness and flexibility allow to adapt itself perfectly around the grafting point during the plant growth without stress. In this way they always ensure successful grafts. These clips are disposable and they do not require any human action to be removed or disinfected. This series is available in 8 different diameter sizes. Made of no toxic material, also suitable for alimentary use.

CODE	CLIPS DIMENSIONS mm	HOLE DIAMETER mm	PACK pcs	PACK WEIGHT kg	PACK DIMENSIONS cm	Foto 0
WM/1	18 x 14 x 11 h	2,5	6.000	4,7	30 x 40 x 15
