

Monouse clips to graft solanaceae (tomato, eggplant, pepper). Available in 6 different diameter sizes to fit any plant dimensions during each stage of growth. The high quality material gives to the clips those features of transparency and flexibility to allow successful grafts and the easy release from the grafted plant. The clips have a hole to keep the stick in to right position. These clips are disposable and they do not require any human action to be removed or disinfected. Made of no toxic material, also suitable for alimentary use.

NEW! Now available also in 2,1 size
